**Summary of reasons
for classification:**

The computer image file entitled *Misunderstanding* is classified as:
Objectionable.

This classification is because the publication promotes and supports the exploitation of children for sexual purposes.

The publication is a computer image file which depicts a young girl engaged by her father in sexual activity. The focus of the drawings is frequently on the girl's naked body and the sexual activity which occurs; the intended purpose of the drawings seems to be to sexually arouse the reader. For those with a sexual interest in children, the publication serves to legitimise and encourage that interest.

The classification of this publication interferes with the freedom of expression, as set out in s14 of the New Zealand Bill of Rights Act 1990. This outcome is consistent, however, with Parliament's intention that publications falling under s3(2) of the Films, Videos, and Publications Classification Act 1993 are deemed to be objectionable. The classification is also a reasonable limitation on the freedom of expression that reflects the concern of a free and democratic society to limit the availability of publications that promote and support the exploitation of children for sexual purposes.
